THE OUTER LIMITS

The Outer Limits: Understanding When a Compliance Matter Becomes a Legal Matter and What to Do When It Does

PTOA: Parallel Table of Authorities and Rules | United States Code, Title 26

"There is nothing wrong with your television. Do not attempt to adjust the picture. We are now in control of the transmission. We control the horizontal and the vertical. We can deluge you with a thousand channels, or expand one single image to crystal clarity and beyond. We can shape your vision to anything our imagination can conceive. For the next hour, we will control all that you see and hear." **THE CONTROL VOICE**

The following attached information involves the CFR Parallel Table of Authorities and Rules written for and under Title 26 United State Code... *however* every Code of Federal Regulation in this attached list has nothing to do with Title 26, INTERNAL REVENUE CODE concerning INCOME TAXES or IRS *enforcement of income taxes* or its administration or compliance matters

The following table lists rulemaking authority (except 5 U.S.C. 301) for regulations codified in the *Code of Federal Regulations*. Also included are statutory citations which are noted as being interpreted or applied by those regulations. The table is divided into four segments: United States Code citations, United States Statutes at Large citations, public law citations, and Presidential document citations.

Within each segment the citations are arranged in numerical order:

For the United States Code, by title and section;

For the United States Statutes at Large, by volume and page number;

For public laws, by number; and

For Presidential documents (Proclamations, Executive orders, and Reorganization plans), by document number.

Entries in the table are taken directly from the rulemaking authority citation provided by Federal agencies in their regulations. Federal agencies are responsible for keeping these citations current and accurate. Because Federal agencies sometimes present these citations in an inconsistent manner, the table cannot be considered all-inclusive.

The portion of the table listing the United States Code citations is the most comprehensive, as these citations are entered into the table whenever they are given in the authority citations provided by the agencies. United States Statutes at Large and public law citations are carried in the table only when there are no corresponding United States Code citations given.
