THE LAW & THE WORD

The great institutions of the past, in addition to our new institutions of the present were built upon taxation or tithing as referred to in the Old & New Testament of the Holy Bible. Is taxation & tithing about our certain beliefs and practices described in the Bible or is taxation more about the people who collect it and those who are compelled by their religion to receive something in return from a religious formation. The Collective Experience of the past or present day is base on law respecting an establishment of religion. The past presented THE LAW and THE WORD whereas, today we have [THE CODE] and [THE WORDS] of THEIRS

Take it on Faith... the Collective Experience NOW or THEN
