

The Golden Rule of Taxism

“He Who Has the Gold Makes the Rules”

The golden rule.

He who has the gold, makes the rules.

GOLDEN RULE

"Do unto others as you would have them do unto you."

- Matthew 7:12

Which of these rules is religion versus reason?

*The Golden Rule is not in some measure... the books or passages we read from or whether our rules are based upon a religion or... a reason. Rather it is the regulatory beliefs, practices and convictions that are followed by its religious adherents... or in Taxism, those few who can buy the law, make the rules of a personal standard of **THEIRS** or be exempted from it. The true difference is found within our Nation's values, morals or religious principles and not just in ourselves.*
