

The Collective Hopes Of THEIRS

“Understanding Your IRS”

“The IRS’ Case of Missing Children”

A Leap of Faith with a Deified System of Beliefs, Practices & Convictions

Plaintiff [believe] the Collective Hopes of THEIRS is witnessed when a taxprayer takes a **Leap of Faith** over a vast legal chasm of endless religious rules, beliefs and practices or when a taxpayer is standing still... gazing into a very dark deep abyss of never ending taxing thoughts, words or actions of THE-IRS. Defendants have deified a legal system creating religion; not reason, manifesting a new age religion (Taxology) through a taxing system of religious beliefs, practices and convictions that demands certain conduct or inspires it when seeking or making a proper return

Where you hope to be standing in life or where you place your hope in or with, may vary, however; taking a leap of faith as a **taxprayer** or a taxpayer may determine your faith, your destiny or worst, your fate was in your own hands.

Converting Taxpayers into Taxprayers with Law Respecting an Establishment of Religion

“One Look. One Voice. One IRS.”
